Master thesis in Forest Management at the dept of Forest Economics, 30.0 credits

[Syllabus](#)

Formal requirements, as specified in "Instruktion för Examensarbete" (Faculty of Forest Sciences, 2007-06-27) regarding working plan and mandatory elements in the working process and examination (p 11) shall fulfilled.

The work can deal with any subject covered by the broader term Forest Management. This can be interpreted as "Economic theory applied to problems in forestry", with specific reference to the rational use of forest as a natural resource. The key words are "economic" defining the theoretical base, and "forestry" defining the problem area.

Prerequisites

The equivalent of: BSc thesis in Forest Science/Forest Management 15 credits, 30 credits Forest Science/Forest Management advanced level and English B (TOEFL score minimum 550 / Computer score 220 / IELTS score of 6.0. Special demands for special thesis may occur.
